Increasing our e-learning offerings

Our clients' members and volunteers have increasingly busy schedules. It is difficult and expensive to plan on-site educational opportunities. We have found that e-learning is more conducive for our clients' members and volunteers. In addition, feedback demonstrates that webinars are often more effective than alternatives because members and volunteers appreciate the flexibility that the technology provides.

We are always working with our clients to create new resources, and we welcome your continued feedback. The list below reflects most of our current offerings.

- A thorough review of risk management strategies and the reasoning behind them

Risk Management Module

- A helpful guide for member's parents to explain to them how the insurance program works and what is covered

Insurance Basics for Member's Parents

- A quick presentation that aims to show chapter officers what resources are available and where to find them

Chapter Officers' Orientation

- A resource for members and volunteers who are responsible for reviewing contracts

Contract Review 101

- An in-depth resource and training guide for House Directors discussing how the insurance program impacts them directly

On the Frontlines: House Directors

- Insurance basics for new members

New Member Orientation

- A resource that uses case examples to demonstrate the pitfalls of unofficial housing

Unofficial Houses

- A quick presentation on preventing our most common workplace injury: slips and falls

Preventing Slips and Falls

- Helpful resources to better understanding Certificates of Insurance

Certificates of Insurance: Part I and Part II
