

MJ Insurance and SimplexGrinnell have partnered together to offer MJ Sorority's clients the most comprehensive fire and life safety program available on a national level. For years, SimplexGrinnell has been recognized as the North American leader in fire and life safety. Through a National Accounts program, we are able to offer preferred pricing and multiple value-added benefits. In order for SimplexGrinnell to provide a quotation for service, please answer all of the following questions as thoroughly and as accurately as possible. The information provided will be used to determine the annual cost of SimplexGrinnell's fire and life safety protection services. For some items, you will need to reference your recent fire testing / inspection reports.

ABOUT YOUR CHAPTER HOUSE

- What is the maximum occupancy / how many beds can your chapter house accommodate? _____
- What is the square footage of your chapter house? _____

FIRE ALARM SYSTEMS – Fire alarm systems can be activated manually or automatically and are used to notify occupants of the building (by the use of horns, bells, strobe lights or other signals) of impending danger from smoke or fire.

- Is there a fire alarm system installed (fire control panel, pull stations, horns, etc.)? YES NO
- Are there battery operated smoke detectors (household type)? YES NO If YES, how many? _____
- When was your most recent fire alarm inspection completed (month, year)? _____

FIRE SPRINKLER SYSTEMS – Fire sprinkler systems are activated automatically by heat from a fire and discharge water for the purpose of controlling a fire and preventing it from spreading.

- Does your chapter house have fire sprinklers installed in any part of it? YES NO
- If YES, please specify if it is a DRY or WET pipe system _____
- Are there backflow preventers in your chapter house? YES NO If yes, how many? _____
- When was your most recent fire sprinkler inspection completed (month, year)? _____
- If YES to having backflow preventers, when was the most recent inspection (month, year)? _____

FIRE EXTINGUISHERS – Fire extinguishers are portable, hand-held units that contain extinguishing agents that an occupant may use to fight a small fire that can still be controlled.

- How many fire extinguishers are in your chapter house? _____
- When were they last inspected (month, year)? _____

EMERGENCY & "EXIT" LIGHTS – Emergency lights are units that illuminate egress areas (such as hallways, stair wells and exit doors) when there is an interruption of normal power to a facility. Exit signs illuminate to direct occupants to an exit route.

- How many battery operated emergency lights are in your chapter house? _____

(Please count combination emergency/exit signs as one unit)

- How many battery operated "EXIT" signs are in your chapter house? _____

KITCHEN HOOD FIRE SUPPRESSION SYSTEMS – Kitchen fire suppression systems can be activated manually or automatically. These systems discharge an extinguishing agent onto cooking appliances to extinguish fires as well as cut off power or gas to the heat source.

- Does your chapter house have a fire suppression system protecting cooking appliances? YES NO
 - If YES, what is the name brand of it? (This can be found on the system tank or manual pull station. Common brands are Ansul, Pyro-Chem, Kidde, Range Guard, Badger)

- When was your most recent kitchen hood fire suppression inspection (month/year)? _____

Please note: The pricing set forth in the quotation is based on the information provided by this survey. If the actual number of units and/or systems is different than specified on this survey, the price will be adjusted accordingly.
